WELCOME

Located in the old servant's kitchens, the setting retains many original features - including the vast cast iron stoves of the 1700s - which give the restaurant it's unique character.

With all of this and much, much more - the food was sourced organically and much of the produce was from local markets, from cheeses and charcuterie to fresh handmade pasta and organic sourdough. Kathleen's Kitchen invites you to explore its varied delights, and perhaps discover something new.

This was once a place of bustling activity, controlled chaos and unrivalled culinary skill.
